The Digital Solutions Gallery Virtual Keynote Session
October 12, 2023

“The Responsibility Of Information Management”

In today’s landscape, effective information management is our fuel for building the foundation of success; innovation, strategic decision-making and operational efficiency.

Yet, it also brings with it strict responsibilities. Robust data governance, security protocols and privacy safeguards are all imperative in shielding sensitive insights from cyber threats and unauthorized access. Our evolving legal and regulatory landscape further underscores the need for meticulous information management, ensuring compliance and building trust among stakeholders. Simply said, effective information management has become an indispensable skill.

Come join futurist Thornton May for an amazing discussion with highly noted top-tier executives as we explore the delicate balance between leveraging data for cutting edge advancements and upholding the utmost sensitivity and respect for user privacy.

Now in its 20th year, the “Digital Solutions Gallery™” is a nationally acclaimed ongoing forum where senior leaders and their business peers come together in a comfortable setting to share experiences and insights, as well as collaboratively attack common issues. Throughout 2023, this six-session series will allow participants to better appreciate not only what is coming, but also how its associated value might be captured.

There is NO COST to invited senior leaders. Sponsoring opportunities are available for invited technology product and service providers.

**Agenda:**

10:00am Welcome and Session Introduction

Mr. Bruce Barnes
*DSG Program Co-Founder*
*The Ohio State University and Co-Host For This Program*
10:10am  Opening Presentation and Context Set

Mr. Thornton May  
_DSG Program Co-Founder_  
_Internationally Acclaimed IT Futurist_  
_Co-Host For The Session_

Thornton May is a futurist, educator and noted author. He is the Co-Founder of the Digital Solutions Gallery, as well as the Founder of the Digital Value Institute.

His extensive experience researching and consulting on the role and behaviors of “C” level executives in creating value with information technology has won him an unquestioned place on the short list of serious thinkers on this topic. eWeek has named Thornton on their list of Top “100 Most Influential People in IT”.

10:20am  First Showcase Thought Leader

Mr. Atle Skjekkeland  
_CEO; Infotechtion_  
_President; Digital Value Institute_  
_Formal SVP; AIIIM International_

Atle is an internationally known information management innovator and educator. He has been aptly described as a digital explorer and evangelist. Atle is a frequent showcased speaker on an international circuit, as well as a facilitator and educator at events and workshops across the world.

10:35am  Second Showcased Thought Leader

Ms. Janis Meyer  
_Of Counsel_  
_Clyde & Co._

Ms. Meyer advises clients on professional responsibility, risk management and professional liability issues, with a particular emphasis on attorneys and law firms. As the general counsel of a global firm, she is familiar with a broad spectrum of issues arising in law firms and assists clients on a variety of matters relating to law firm organization, management, policies and structure. She is a prolific speaker on ethics and risk management issues at conferences throughout the country, as well as the UK.
10:50am  Third Showcased Thought Leader

Ms. Jane Alexander
